Zone 3, Pantay Matanda, Tanauan City, Batangas | annekathlynmedrana03@gmail.com | +639 30777 6915 | [LinkedIn](#) | [Portfolio](#)

SUMMARY

IT professional with hands-on experience across software development, QA/manual testing, database management, and technical documentation. Skilled in VB.NET, ASP.NET, PHP, Node.js, and React, with strong attention to data accuracy through report generation and data manipulation. Experienced working within confidential, enterprise-grade systems for a Japan-affiliated manufacturing company. Adept at using AI-assisted tools (ChatGPT, Claude, Gemini) to accelerate development, debugging, and documentation workflows.

PROFESSIONAL EXPERIENCE

IT Staff II (Software Developer)

June 2025 - Present

Nippon Micrometal Corporation Philippines (NMCP)

- Maintained and enhanced in-house business systems built for a Japan-based manufacturing parent company, supporting cross-departmental operations under confidential development protocols.
- Performed data updates, validation, and manipulation across SQL Server and MySQL databases to maintain accuracy for internal reporting.
- Generated and formatted operational and status reports used by internal teams for day-to-day decision-making.
- Conducted manual system testing to identify bugs and inconsistencies prior to release, and diagnosed and resolved system issues to minimize downtime for end users.
- Debugged and enhanced internal applications built with VB.NET, ASP.NET, and Node.js, improving stability and usability.
- Produced and maintained technical documentation covering system changes, testing outcomes, and support procedures.
- Integrated AI-assisted tools (ChatGPT, Claude, Gemini) into daily workflow to accelerate coding, debugging, and documentation.
- Delivered technical support and resolved system-related inquiries for internal users company-wide.

IT Staff Internship (Software)

March 2025 - June 2025

Nippon Micrometal Corporation Philippines (NMCP)

- Assisted in software development, manual testing, and technical documentation for internal business systems.
- Supported debugging and issue resolution for existing applications alongside senior developers.
- Gained hands-on exposure to database management, reporting, and enterprise IT operations.

SKILLS

Development: VB.NET, ASP.NET / ASPX, PHP, Node.js, React (Vite)

QA & Testing: Manual system testing, bug identification & tracking, technical support & troubleshooting

Data & Reporting: SQL Server, MySQL, data validation & manipulation, report generation

Documentation & Design: Technical documentation, responsive web design, publication material design, Figma (UI/UX)

AI-Assisted Tools: ChatGPT, Claude, Gemini

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2021 - 2025

Polytechnic University of the Philippines - Sto. Tomas Campus

- With Special Award for Academic Distinction - GWA: 1.43
- Outstanding Service Award

Senior High School - STEM Strand

2019 - 2021

Daniel O. Mercado Medical Center Institute of Health Sciences (DMMCIHS)

- With Honors

ADDITIONAL INFORMATION

- Comfortable working within confidential, security-conscious enterprise environments
- Strong communication and cross-team collaboration skills
- Quick learner with adaptability to new technologies, tools, and systems
